NOTE: the Village's official fee schedule has been for some time in need of a comprehensive review and we believe various modifications are presently still warranted; the law requires an annual review and readoption with or without modifications by the Village Board and where reasonably warranted, the reasons for same expressed in the record of the meeting when approved. Based on the same concern having been raised at prior organizational meetings, our former Codes Officer did suggest, and the Board accordingly adopted several modifications however for the most part relating mainly to property maintenance, construction and inspection related fees, such as for Building Permits, Certificates of Compliance or Occupancy and the inspections incidental to same. Primo indicated this was from memory but those were the general areas of his concern and those changes were made he believed in 2015; Primo suggested the schedule still needs to be reviewed; many zoning and planning related applications and permits require considerable work by administrative staff, our application fees, particularly for non single or even two family owner occupied premise need to be reflective of the market and we have to collect related fees up front, such as for publication and our professional fees escrows. While certain proceedings perhaps should not be subject to professional fees for review, these should be limited to matters like area variances to correct long existing but newly discovered violations, interpretations as to whether certain premises are legal non-conforming and the like. Otherwise, if related to any constructed improvements such as may increase property value, to have the Village general fund incur same is patently unfair. Since the fee schedule needs to be reviewed and formally readopted either as exists or with modification. The Village Attorney advised that over the next few months he would gather comparables from municipalities that clearly have an understanding from current experience as to all the work that ensues with even minor applications and will assemble it, meet with Jim Lynch for his input on those fees or perhaps others he has concerns regarding; they will attempt to reach a consensus and then present to the Board a proposed set of modifications including where warranted an explanation as to the numbers proposed. He indicated this would take a few months thus perhaps timing the newly modified fees for January 2020.
